

strings::writeq::writeq_dr

```
graph LR; A[strings::writeq::writeq_dr] --> B[strings::trimzero]
```

A diagram showing a relationship between two identifiers. On the left, a gray rectangular box contains the text 'strings::writeq::writeq_dr'. A dark blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'strings::trimzero'. Both boxes have a black border.

strings::trimzero
